

Listening to blues music is one of the best ways to understand the blues. Listen to three blues songs found on the interactive exhibits. For each song, write down:

1. The name of the song.
2. The name of the musician(s) performing the song.
3. The feeling you get when listening to the song.

Song 1:

---

---

---

Song 2:

---

---

---

Song 3:

---

---

---

Now listen to three contemporary musicians found on the interactive exhibits. For each song, write down the same 3 variables: name of the song, the name of the musician(s) and the feeling you get while listening to the song.

Song 1:

---

---

---

Song 2:

---

---

---

Song 3:

---

---

---

Were you able to find the same song(s) performed by original and contemporary artists? If so, what made the versions different? Did these different versions evoke different emotions for you?

Explain...
